Topic:

Speaker:

Revera Supporting Seniors Network (RSSN) was developed to bring businesses and organizations who work with boomers and seniors together to network with other like-minded professionals and create a reputable referral directory for Revera seniors, prospects and their families. We realize that there are many wonderful businesses, organizations and professionals who also support seniors and provide services that compliment and contribute to the services that we provide.

There is no fee for attending; a donation to The Prosperity Fund (www.prosperityfund.ca) is appreciated.

Revera owns and operates 18 retirement residences in Ottawa, Eastern Ontario and Gatineau. We are pleased to be caring for over 2000 seniors in our community. We also support families, friends and staff with educations, resources and friendship. With over 45 years of experience Revera Retirement is a leader in seniors care, support and accommodations.
